The Czechoslovak Ministry of Internal Trade has announced the December ration scale for food items and soap.

Food and soap allocations are issued only on individual coupons.

Children up to 6 years of age may obtain bread on all "flour" coupons from the II/a ticket at the rate of 1 kilogram of bread for 750 grams of flour.

Coarse wheat flour is issued only on "coarse flour" coupons; wheat grits may also be purchased on these coupons.

Fine wheat flour is available on all flour coupons, as are baked goods, macaroni products, and bread crumbs.

Butter may be purchased only on "butter" coupons when the consumer registers for it, prior to 29 November. The same applies to milk.

Children's foods are issued as follows:

1. Children up to 2 years: food package No I (3 boxes PMV not identified milk food) or No II (100 grams of biscuits) issued on coupon "Children's Food I or II," marked with a black square. In the purchase of food package No I, coupons for 500 grams of flour must be surrendered in addition; for No II, coupons for 50 grams of flour.

2. Children 2-6 years: food package No III (500 grams of cookies or zwieback) for coupons "Children's Foods III"; 250 grams of flour coupons must be surrendered at the same time.

All coupons are valid for purchase throughout December, except a few bread coupons, which are specially marked for limited periods of validity. In industrial catering, in brigade kitchens, in convalescent homes, and in catering for children, youth, and schools, bread coupons may be surrendered regardless of their limited validity.

Special provisions are made for persons who are billeted communally. They are issued individual ration cards, but the management of their institution may present the coupons in bulk to the various suppliers. Supplementary cottage-cheese rations for December will be given only to medical institutions, sanitariums, and enterprise dietary kitchens.

The following three tables show December 1952 rations by age groups, supplementary rations for 1952, and soap rations by age groups:
